

Resolution Demanding Restoration of Constitutional Liberty by Dissolving the Federal Deep State

Introduction: Over the past decades, many personnel at the Federal level have acted in an inappropriate manner, against the American people. Though we acknowledge that not every employee at these agencies is a bad actor, and likely, a solid majority of them are honest actors just trying to do the right thing; a core of these Federal employees is acting in detrimental manner injurious to the Constitution. These federal employees are actively undermining the nation, subverting American liberty, and are referred to as the Deep State, to denote their secretive and unaccountable nature.
