

## **RESOLUTION IN SUPPORT OF BORDER SECURITY AND IMMIGRATION RESTRICTION**

**Summary:** Our border has been a disaster for the past several decades. Millions of migrants, usually for purely economic factors, have illegally crossed over and millions more have legally come to this country at the behest of multinational corporations to drive labor costs down, and many if not most of these individuals have no loyalty to our civilization or society. The result has been more crime, a bigger drain on state resources, and less social cohesion. Our elites have actively brought and encouraged the migration of millions of people that cannot or will not assimilate, believing not that diversity is a strength but rather a more diverse nation is easier to divide and conquer. We must take decisive and bold action to reverse these trends and renew our civilization before it is too late.

**WHEREAS** the current influx of foreign nationals into the United States via immigration, legal and illegal, has become detrimental to American prosperity, safety, and social cohesion [1]; and

**WHEREAS** mass immigration has led to the often-ignored increase in violence against the American people [2], contributed to the rise of political ideologies and movements motivated by hatred for the traditional conception of the American nation, and has initiated a jarring demographic shift that has alienated and is dispossessing Americans economically [3] and electorally; and

**WHEREAS**, ignoring the border issue has resulted in mass chaos and destruction and is the country's leading national security crisis [4]; and

**WHEREAS**, Democrats and captive Republicans who have ignored this crisis are guilty of treason and are the fifth column allowing the destruction of the nation from within; and

**WHEREAS** the refugee resettlement ceiling since has exploded since President Trump was removed from office, increasing from 18,000 to 125,000, the highest since 1993 [5]. This has resulted in criminal ethnic enclaves to develop, initiating gang warfare in places like Omaha, Nebraska with Sudanese migrants [6] as well as Lewington, Maine [7] and Minneapolis, Minnesota [8] with Somalian migrants; and

**WHEREAS**, recognizing much of the push for endless legal and illegal immigration is about displacing the American worker, making them obsolete, and minimizing their power to the rootless forces of transnational global capital, we must not forget the more sinister far-left agenda in play behind the planned demographic collapse of America.

**WHEREAS**, our current immigration crisis has been aided and is being exploited by anti-American elites ensconced in academia, the media, Wall Street, and the military-industrial complex to achieve their liberal policy agenda of replacing the historic American people and their culture, propagating false historical narratives about the United States such as the 1619 Project and Critical Race Theory, and erasing celebrations of the traditional American heritage.

**WHEREAS** the media engages in deceptive double-speak in discussing the demographic changes brought about by mass migration; denying talk about demographic replacement as a “conspiracy theory” when conservatives raise concerns while simultaneously celebrating it in the mainstream media and declaring it a positive good [9].

**WHEREAS**, most Americans are dissatisfied with the current volume of immigration and stand to benefit economically, socially, and politically from the restriction of the current flow of migrants into the United States [10]; now therefore be it.

**RESOLVED**, that [INSERT NAME HERE] calls upon the President and both Republican and Democrat members of Congress as well as state and local legislative assemblies to immediately take action to end all illegal immigration to the United States by any means at their disposal, including the construction of a southern border wall, military deployments to the southern border, and increased funding for Immigration and Customs Enforcement; and, be it further

**RESOLVED**, that [INSERT NAME HERE] calls upon the President and both Republican and Democrat members of the Congress as well as state and local legislative assemblies to cease further “refugee” resettlement; and, be it further

**RESOLVED**, that [INSERT NAME HERE] calls upon the President and both Republican and Democrat members of Congress to take action to restrict legal immigration in the following ways to protect the prosperity and safety of American citizens:

- (1) Restrict legal immigration per year by at least 50% if not more. Restrict permanent immigration visas to 250,000 or less per year.
- (2) Restrict legal immigration based off cultural and civilizational compatibility.
- (3) Existing 1<sup>st</sup> and 2<sup>nd</sup> generation immigrants from non-compatible cultures will be excluded from any welfare and entitlement benefits in order to help persuade immigrants and individuals who are antagonistic to our civilization’s core foundations to self deport in combination with our other calls to action.

**RESOLVED**, that [INSERT NAME HERE] calls upon the President and both Republican and Democrat members of Congress as well as state and local legislative assemblies to take action to engage in the deportation of millions of individuals illegally here. All tools to deport them shall be used, including but not limited to:

- (1) Fining and bankrupting companies that hire illegal immigrants.
- (2) Increasing the budget of Border Patrol and ICE and their equivalent at the state level.
- (3) Using the resources of the national security apparatus to track down these individuals and deport them, instead of using these resources to spy upon and harass patriotic Americans.
- (4) Using the military to engage cartels and gangs that operate on American soil.

**RESOLVED**, that [INSERT NAME HERE] calls upon the President and both Republican and Democrat members of Congress as well as state and local legislative assemblies to take action to work to repatriate existing 1<sup>st</sup> and 2<sup>nd</sup> generation immigrants and other individuals that have a hatred and disdain for our civilization. Using financial incentives and travel/moving reimbursements, the demographic collapse of America can be reversed.

**RESOLVED**, that [INSERT NAME HERE] calls upon the President and both Republican and Democrat members of Congress as well as state and local legislative assemblies to take action to halt the deliberate effort by liberal elites to shift the demographic makeup of the United States and to maintain its current demographic composure via pro-natal policies that incentivize American citizens not already dependent upon the welfare system to form families and raise children to bolster our nation's declining birthrates. We call upon our birthrates to be raised using the following policies.

Massive tax incentives to married households, one man one woman that have more than two kids. Further tax incentives if the wife stays at home to take care of the kids will be implemented. Furthermore, incentives to families with well-behaved children can be implemented as well (good grades, stay out of trouble with the law, etc.).

- (1) Pro-Natal messages will be encouraged in Hollywood, TV, and streaming platforms. Anti-Natal propaganda on major media channels/outlets will see fines levied and removal of other benefits.
- (2) Statues honoring traditional families shall be erected in every major town and city. Defacement of these statues will result in fines and jail time.
- (3) Pro-Natal messaging will be incentivized in schools. Fatherhood and Motherhood will be glorified and moves will be made to return Christ's message to schools.
