

Resolution of Censorship Against Republican Leaders at Fault for 2022 Midterm Failures

Introduction: We support the passage of this resolution to retaliate and go on the offensive against establishment Republicans who hurt the America First movement in systemic, deliberate and coordinated fashion during the 2024 midterm elections. Their attacks on good, patriotic candidates will not be tolerated as we will not allow our sacred mandate for liberty to fail, no matter what impediments are put in our way. Once our agenda passes, we will become a stronger nation and a stronger people. This begins by assigning the blame where it belongs: weak, cowardly RINO leadership.
