

# REPUBLICANS

## FOR NATIONAL RENEWAL

Summary: The Purpose of this resolution is to address the destruction of the American economy over the last fifty years and provide a clear direction to rebuild the U.S. economy as a manufacturing superpower for the twenty-first century. President Trump has put forth a bold and visionary agenda for his second term, what he refers to as Agenda47, to be adopted when he is elected 47th President of the United States. This revolutionary agenda will upend the globalist status quo and empower American families, workers, industries, and small businesses for generations to come.

For the last fifty years, globalist ideology has undermined our traditions, families, and Republican culture while nearly destroying our Constitutional Republic. Agenda47 ends the corporatist racket of globalization and controlled trade, returning the United States to a system that ensures prosperity for all. Agenda47 in its entirety will revive the United States as a great and perpetual engine of economic growth by reaffirming the American System of government that has been lost throughout the years. Since our founding, the American System has inextricably been opposed to the doctrines of free-trade and globalism, and has instead, favored the supremacy of the American entrepreneurial spirit. It is time to build the future by rediscovering the greatness of our past through the embrace of Agenda47.

We call upon every Republican club, committee, group, organization, and league to support this America First economic platform, one that rebuilds the American middle-class with a real future for the coming generations of American patriots. [1]

WHEREAS the uniparty in Washington, D.C. is more committed to perpetual war than rebuilding our nation and empowering our citizens, while they spend recklessly and increase the national debt;

WHEREAS the American technology sector, intelligence community, and healthcare bureaucracy have devolved into an Orwellian surveillance state, threatening our basic God-given and Constitutionally-protected rights;

WHEREAS the current status of the American economy undermines family formation, making it nearly impossible for working class people to get married, buy a home, and raise a family, let alone on one income;

WHEREAS all generations, young and old, are facing economic hardship from massive inflation due to many decades of reckless monetary policy;

WHEREAS America's global corporations have become more concerned with global profits, woke politics, and green dogmas than the strength of America's factories, skilled labor, and supply chains;

WHEREAS deceptively-named "free" trade agreements have destroyed America's manufacturing sector, while creating massive trade deficits, displacing workers, and leaving the United States weak and vulnerable;

WHEREAS our open borders have facilitated the rise of a new and pernicious sort of organized crime inside the United States, created by the international cartels via narcotics and human trafficking, and violent gang activity;

WHEREAS more than 400,000 young Americans will have died tragically over the last four years from drug overdose, a number that surpasses all American combat deaths during World War II;

WHEREAS major actions are now necessary to defend and empower our nation, her citizens, and her productive potentials, or we will cease to exist as a Constitutional republic;

Therefore, be it...

RESOLVED Agenda47 ends the policy of perpetual war and returns American foreign policy to the interests of the American people, and is firmly committed to the cause of America First; [2, 3, 4, 5,]

RESOLVED Agenda47 reorganizes our intelligence agencies and federal law enforcement agencies because they have become politicized, repeatedly lied to the American people including on the basis of war, and have acted with reckless disregard for our Constitution; [6, 7, 8]

RESOLVED Agenda47 ends the spiraling national debt, and focuses government on empowering the American producer, farmer, and inventor; [9, 10, 11]

RESOLVED Agenda47 prepares our nation for the twenty-first century, including building new cities, creating new hives of industry, ensuring energy independence, and providing an industrial base where young Americans can build a home, make a family, and once again live the American dream; [12, 13]

RESOLVED Agenda47 defends all Americans and our commitment to her citizens, including Social Security and Medicare, keeps America strong by securing the safety of our seniors, and creates more opportunities for our youth to thrive in an environment that is clean and safe, so that all Americans regardless of race, color or creed can be happy and productive; [14, 15, 16]

RESOLVED Agenda47 ends any government commitment to various ideological factions, whether climate apocalypse, gender-fixation, wokeness, racism, or whatever becomes the latest cultish fad, and renews our nation's Constitutional commitment to all her citizens, including our God-given protected rights; [17, 18, 19]

RESOLVED Agenda47 educates our young people to be proud of the heritage of their ancestral heroes and to become patriots uplifted with the American spirit, invigorated with optimism for the nation in which they are privileged to live in, and be prepared to build and lead a better future for coming generations; [20, 21, 22]

RESOLVED Agenda47 ends the era of globalization, globalist free trade, and pro-China policies, and restores the American System of economy by building common sense trade reciprocity that is in the interests of the American people, including all Constitutional means to restore our economic sovereignty and industrial might; [23, 24, 25, 26, 27, 28]

RESOLVED Agenda47 recognizes the plague of drug addiction, human trafficking, and gang violence which is destroying the fabric of American culture and the lives of countless Americans. Drug cartels must be eliminated with extreme prejudice by securing the border, enforcing the rule of law, and punishing pushers of opioids; [29, 30, 31, 32, 33, 34]

RESOLVED Agenda47 will restore our citizens' love and appreciation for our nation as a Constitutional Republic. As President Trump said to the United Nations: "The Future belongs to the Patriots, not the Globalists." We will celebrate our nation's 250th birthday in 2026, which should be commemorated with a massive American Fair as proposed by President Trump in similar fashion to the 1876 Centennial Fair in Philadelphia, a celebration that announced the arrival of the great American Industrial economy to the entire world. Let us once again make America great again! [35]
