

Resolution to Remove the U.S. from NATO and the UN

Introduction: The North Atlantic Treaty Organization (NATO) was established in 1949 to combat the Soviet Union during the Cold War. Since the Soviet Union collapsed in 1991, NATO's original reason for existence has disappeared. However, instead of being disbanded, NATO's power is expanding to detrimental effect, provoking Russia to attack Crimea in 2014 and creating a refugee crisis in Libya, all while consuming trillions in American taxpayer dollars.

The United Nations (UN) was founded in 1945 to maintain international peace and security. However, it has failed to prevent numerous conflicts worldwide, with feckless "peacekeepers" who are unarmed and unable to truly intervene in conflicts. Also, like NATO, the UN is primarily funded by the U.S. while at the same time giving it very little power and providing our enemies with a platform with which to bash us and our allies, particularly Israel.
